Lesson 26 - Static methods

الدرس 26 - الدوال الثابتة

Saeed Isa

Static methods

Similar to class method but..

- ▶ Bound to a Class not to object (class instance)
 - ▶ Can be called without class object
- ▶ Can **NOT** modify class state

Let's try...😊

- ▶ Open PyCharm:
 - ▶ Create new file: static_methods.py
 - ▶ Start coding 😊

“

Thank you 😊!

”

Stay tuned for more!
