

Programming

Lesson9 - examples 😊

Saeed Isa

Reminder - till now

- ▶ Variables
- ▶ Input/Output
- ▶ Scopes
- ▶ Conditions
- ▶ Lists
- ▶ Loops
- ▶ Functions

Question 1 - AVG

- ▶ Receive 10 numbers from user
- ▶ Calculate and print the average

Question 2 - break and % operator

- ▶ Keep receiving input from the user
 - ▶ If input is “exit” then we break the loop
 - ▶ Else
 - ▶ Calculate power of 2
 - ▶ Check if even number

Let's try...😊

- ▶ Open PyCharm:
 - ▶ Create new file: examples1.py
 - ▶ Start coding 😊

“

Thank you 😊!
